$$\text{RVC} = \frac{\text{VOM} + \text{Direct Labour Cost} + \text{Direct Overhead Cost} + \text{Profit} + \text{Other Cost}}{\text{FOB}} \times 100$$

where:

RVC is the regional value content of a good, expressed as a percentage;

- (c) simple³ processes, consisting of sifting, screening, sorting, classifying, sharpening, cutting, slitting, grinding, bending, coiling, or uncoiling;

Article 9: Accessories, Spare Parts, and Tools

1. For the purposes of determining the originating status of a good, accessories, spare parts, tools, and instructional or other information materials presented with the good shall be considered as part of the good and shall be disregarded in determining whether all the non-originating materials used in the production of the good have undergone the applicable change in tariff classification or a specific manufacturing or processing operation set out in Annex A (Product-Specific Rules), provided that:
 - (a) the accessories, spare parts, tools, and instructional or other information materials presented with the good are not invoiced separately from the good; and
 - (b) the quantities and value of the accessories, spare parts, tools, and instructional or other information materials presented with the good are customary for the good.
2. Notwithstanding paragraph 1, if a good is subject to a regional value content requirement, the value of the accessories, spare parts, tools, and instructional or other information materials presented with the good shall be taken into account as originating materials or non-originating materials, as the case may be, in calculating the regional value content of the good, provided that:

2. For the purposes of this Article, “indirect material” means a good used in the production, testing, or inspection of another good but not physically incorporated into that other good, or a good used in the maintenance of buildings or the operation of equipment associated with the production of a good, including:

Article 12: Materials Used in Production

If a non-originating material undergoes further production such that it satisfies the requirements of this Schedule, the material shall be treated as originating when determining the originating status of the subsequently produced good, regardless of whether that material was produced by the producer of the good.

Article 13: Unit of Qualification

1. The unit of qualification for the application of this Schedule shall be the particular good which is considered as the basic unit when determining classification under the Harmonized System.

Article 14: Treatment for Certain Goods

The Parties and signatory States shall enter into discussions on the treatment for certain goods under this Schedule upon the request of a Party and conclude such discussions within three years from the start of the discussions. The treatment for certain goods under this Schedule shall be subject to agreement of all the Parties and signatory States by consensus.

ANNEX A

PRODUCT-SPECIFIC RULES

Headnotes to the Annex

1. Pursuant to Article 2 (Originating Goods), this Annex sets out the conditions required for a good to be treated as an originating good.
2. For greater certainty, the origin criteria of “wholly obtained or produced in a Party” and “produced in a Party exclusively from originating materials from one or more of the Parties”, as provided in subparagraphs (a) and (b) of Article 2 (Originating Goods), apply to all tariff lines.
3. For the purposes of interpreting the Product-Specific Rules set out in this Annex:
 - (a) **Section** means a section of the Harmonized System;
 - (b) **Chapter** means the first two digits of the tariff classification number under the Harmonized System;
 - (c) **heading** means the first four digits of the tariff classification number under the Harmonized System; and
 - (d) **subheading** means the first six digits of the tariff classification number under the Harmonized System.
4. Where a good is subject to alternative Product-Specific Rules, the rule will be considered to be met if the good satisfies one of the alternative Product-Specific Rules.
5. A requirement of a change in tariff classification (hereinafter referred to as “CTC” in this Annex) applies only to non-originating materials.
6. Where the CTC rule expressly excludes a change from other tariff classifications, the exclusion applies only to non-originating materials.

7. For the purposes of this Annex:

- (a) **RVC40** means that the good must have a regional value content (hereinafter referred to as “RVC” in this Annex) of no less than 40 per cent as calculated under Article 5 (Calculation of Regional Value Content);
- (b) **CC** means that all non-originating materials used in the production of the good have undergone a CTC at the two-digit level of the Harmonized System;
- (c) **CTH** means that all non-originating materials used in the production of the good have undergone a CTC at the four-digit level of the Harmonized System;
- (d) **CTSH** means that all non-originating materials used in the production of the good have undergone a CTC at the six- digit level of the Harmonized System;
- (e) **WO** means wholly obtained or produced in a Party as provided in Article 3 (Goods Wholly Obtained or Produced). For greater certainty, where the rule for a good is WO, the good can still meet the requirements to be treated as an originating good by being produced in a Party exclusively from originating materials from one or more of the Parties in accordance with subparagraph (b) of Article 2 (Originating Goods); and
- (f) **CR** means the chemical reaction rule. Any good that is a product of a chemical reaction shall be considered to be an originating good if the chemical reaction occurred in a Party. A “chemical reaction” is a process, including a biochemical process, which results in a molecule with a new structure by breaking intramolecular bonds and by forming new intramolecular bonds, or by altering the spatial arrangement of atoms in a molecule. The following are not considered to be chemical reactions for the purposes of this definition:
 - (i) dissolving in water or other solvents;
 - (ii) the elimination of solvents including solvent water ;or
 - (iii) the addition or elimination of water of crystallisation.

8. Where a Product-Specific Rule provides a choice of rules from an RVC-based rule of origin, a CTC-based rule of origin, a specific manufacturing or processing operation, or a combination of any of these, each Party shall permit the exporter of a good to decide which rule to use in determining whether the good qualifies as an originating good.
9. This Annex is based on the 2012 Edition of the Harmonized System, which entered into force on 1 January 2012 (hereinafter referred to as “HS 2012” in this Annex).
